Fishing regime Rules of the Fishing Family Radovljica

Adopted on 15. 03. 2016 by General Assembly of the RD Radovljica on its session and shall enter into force on 01.01. 2017 (or in the new fishing season)

1. GENERAL INFORMATION

- The fisherman is fishing on his/her own responsibility.
- The purpose of this policy is to prescribe the method of fishing in Radovljica's fishing area , which covers the districts Sava A, Sava 4, pond Vošče and Lipnica that are managed by the Fishing Family Radovljica (hereinafter referred to as RD Radovljica).
- You may fish only under the rules of this Regulation and in accordance with the provisions of: Freshwater Fishing Act (Off. Gazette no. 61/2006, dated 13. 06. 2006); Rules on fishing regime in the fishing waters (Off. Gazette no. 99/2007 dated 30. 10. 2007).
- This policy sums up the law in the most important points and adds specific fishing arrangements of the RD Radovljica. In the event that certain rules in these Rules are not listed, applicable legislation is taken into account.
- Due to the fact that brown trout is endangered species, in the districts of the RD Radovljica this species is added to the protected species of fish and cannot be taken.

2. FISHING LICENCE

- Recreational fishing is carried out by the beneficiaries of the districts on the basis of fishing licences issued by the RD Radovljica. Fishing licences are annual, daily and multi-day.

The needs required to obtain the annual fishing licence are:

- 1. The membership of the RD Radovljica, or by resolution of the Board of Directors.
 - 2. The financial liability, such as membership fees, obligations of hours not worked;
 - 3. The member must not have been penalized in disciplinary proceedings, the sanction is a ban on the acquisition of fishing permits;
 - 4. The member must return the previous annual fishing permit.
-
- Annual fishing licence must returned by the member to the seat of the RD Radovljica until the 31st of December of the current calendar year.
 - Annual fishing licence must be fully and correctly completed and fulfilled. Otherwise the member is not allowed to take annual fishing licence for the following season.
 - If a member doesn't return the annual fishing licence by the 1st of March the following year, he/she must pay compensation in the amount determined by the Board of Directors..
 - Upon loss of annual fishing licence, the owner of lost document must cancel it in the magazine Ribič.
 - Daily and multi-day fishing licences can be obtained at outlets designated by the RD.

- Each fisherman must, before commencing the fishing, enter the date with a ballpoint pen on the fishing licence (fifth of May as 05. 05). Fishing without entered date on the permit is not allowed. The fisherman must also enter every taken fish (immediately after the actual take of the fish) in the line of the date of the fishing (the last box) with one portrait dash.
- If a member of the RD Radovljica invites fishing guests, they fish without a special permit, for his/her fish the member makes an entry in his licence in the box that it is meant for; date of fishing and other liabilities are entered in the above-mentioned manner. For proper fishing of the guest, responsibility lies with the member of the RD who invited him.
- When a fisherman reaches the allowed daily quota of fish taken, he/she must stop fishing and enter the number, type and weight of the fish. Fish weight shall be entered in the unit kilogram, with one decimal place (eg. 2.5 kg).
- Throughout the fishing the fisherman must have all the fish taken in his/her possession.
- On the fishing day the member can also bring his or her child up to 15 years of age with him-the child can fish with his own rod and only catch and release system ..
- A fishing licence is not transferable and the holder will be identified with a membership card.

3. RESTRICTIONS AND PROHIBITIONS

- Fishing from bridges and dams is forbidden.
- Dehooking gear (pliers) is mandatory while fishing.
- Only one bait can be tied to the fishing rod.
- Fishing of any kind must be performed with one fishing rod only. Fisherman is not allowed to have gears for different fishing methods by his/her side. The caught fish can be touched only with wet hands.
- The use of double, triple or multispiked hooks is forbidden- they are allowed only with fishing for huchen or pike in the district Sava 4.
- Only single hook is allowed with fishing with artificial fly.
- The fish is measured from the top of the head to the end of the tail fin.
- Daily fishing is defined as the time from dawn to dusk. Dawn occurs one hour before sunrise, dusk occurs one hour after sunset. To determine the time of sunrise and sunset the data of the Agency of the Environment of Republic of Slovenia must be taken into account.
- Member of the RD Radovljica, which has not yet passed the exam for recreational fishermen and has the status of trainee as well as minor members may fish only in the company of a mentor or another member of the RD Radovljica who has passed the exam for recreational fishermen.
- During spawning time it is prohibited to fish on spawning places, to disturb the fish in spawning places, walking on spawning pits and gravel where the fish spawn. If the Board of Directors or manager of the RD estimate that due to spawning or for other objective reasons a certain part of the fishing ground requires closing, he/she publishes it on the bulletin board and on the website of RD.
- If a fisherman notices strange behavior of fish (death) or water pollution, he is obliged to call 112 - Information Centre or the fishing guards of the RD Radovljica.
-

4. NUMBER OF FISHING DAYS ALLOWED

4.1 Member of the RD Radovljica with valid fishing licence can use 50 days of fishing:

- The pond Vošče: 20 days

4.2 Member of the RD Radovljica with valid fishing licence can use 30 fishing days fishing for salmonids:

- 10 fishing days in the districts Sava A and Lipnica
- 20 fishing days in the district Sava 4

4.3 Fishing for huchen is specially determined under nr. 8.

4.4 Each member can have additional 10 days in the chosen district but he/she must take care of it at the family's headquarters himself/herself.

FISHING REGIME BY INDIVIDUAL DISTRICT OR BY FISH SPECIES

5. DISTRICT SAVA 4

- It spreads on the river Sava from the marking in Rakovnik to the border with the RD Tržič (large rock on the right bank of the confluence of the Sava and Tržiška Bistrica, and on the left bank to the creek before the Tržiška Bistrica).
- The fish that can be taken: rainbow trout, grayling, chub, pike and huchen.
- It is allowed to fly fish or spin fish (even use water balls) and use one artificial fly with fishing for rainbow trout, extra lead ballast up to 5mm in diameter is also allowed.
- It is only allowed to fly fish for graylings using barbless, artificial fly..
- It is only allowed to spin fish for chubs using single hook. Fruit as bait is allowed. In the annual fishing licence the date is entered in the box chub-10days.
- The daily take in the district Sava 4 :

Salmonids - 3 rainbow trouts or 1 grayling and 2 rainbow trouts or 3 chubs
- Fishing for huchen and pike is determined under nr.8.

6. DISTRICT SAVA A AND THE CREEK LIPNICA – CATCH AND RELEASE DISTRICT FOR ALL THE SPECIES OF FISH

- The district Sava A expands on the river Sava Bohinjka from the dam Cajhnov jez to the confluence and continues along the river Sava to the marking in Rakovnik. The district creek Lipnica extends from the dam below the factory Iskra mechanisms Lipnica to the outflow of the Lipnica into the Sava in Podnart.
- Fly fishing with one artificial fly tied to single, barbless hook (or fly with barbs pressed) is allowed. Extra ballasts are not allowed.
- Only spin fishing for chub in the district Sava A is allowed using single, barbless hook. Fruit is used as bait.
- Fishing for huchen and pike is determined under nr.8, but the baits used must be single, barbless hooks (or with barbs pressed). Up to two single hooks are allowed.

- The duly completed licence to catch rainbow trout and grayling in this district enables you to fish under the same conditions in the district of Sava 4.
- The take of any fish is not allowed.

7. THE POND VOŠČE

- The allowed fish for the take are: carp, pike, zander, rainbow trout, chub and catfish.
- Only one fishing rod and one single hook are allowed no matter how you fish. Fly fishing is also allowed.
- For fishing for carps all the baits of plant origin are allowed.
- Fishing for chub is allowed with fruit as bait.
- You can fish for rainbow trout only with artificial fly.
- We fish for zander, pike and catfish using artificial baits longer than 8cm. The bait can have up to two single hooks tied.
- 1 carp or 1 pike or 1 zander or 3 chubs or 3 rainbow trouts or 1 catfish can be taken a day.
- Keeping of live fish in nets is strictly forbidden.

8. FISHING FOR HUCHEN

- The annual number of allowed take of the huchen in the waters of the RD Radovljica is determined by the Board of Directors.

The fisherman is obliged to bring the caught huchen to the manager, the President or the guard of the RD Radovljica within 2 hours, where huchen can be officially measured

- Before fishing, the fisherman must check with the manager, the President or on the website of the RD Radovljica (www.ribiskadruzinaradovljica.si) whether the fishing for huchen is still allowed.
- It is allowed to spin fish or fly fish for huchen.
- Minimum thickness of nylon is 0,40 mm. All the artificial baits, longer than 10cm, are allowed except in the district of Sava A, where the condition from **nr.6** must also be met.
- At least two members of the RD Radovljica must fish for huchen together—they must have fishing exam passed and the distance between them can be up to 100m.
- The tourist who is fishing for huchen must always be escorted by a member of the RD Radovljica with passed exam for recreational fishing. The member can escort up to three tourists at the same time (with 3 tourists he is not allowed to fish himself), the guard of the RD Radovljica can escort up to 5 tourists.
- The member can take only one huchen per fishing season.
- If the fisherman who fishes for huchen, catches a pike and takes it, he/she must conclude the fishing for the day. The pike doesn't come into quota of the allowed take of the huchen. The

member can take only one pike per year. All the other conditions regarding fishing for huchen are also valid for pike.

- You can fish for huchen from dawn to dusk. Dawn occurs 1 hour before sunrise, dusk sets one hour after sunset; the exact time is posted by Agency of Environment of Republic of Slovenia. .

9. FLY FISHING IN THE DISTRICT SAVA 4 FROM THE BRIDGE IN POSAVEC TO THE BORDER WITH THE RD TRŽIČ

- Fly fishing is allowed in this part of the district Sava 4 during November (rainbow trout, grayling). The take of fish is allowed and determined for the district Sava 4 under nr.5 of these Rules.

10. FISHING SEASONS, ALLOWED MEASURES AND ALLOWED BAITS

- The fishing season starts with the first date in the table and ends with the last one.

11. GUARD DUTY

- Fishing guards act in accordance with the Law on freshwater fishing, other laws of the Republic of Slovenia and the rules of the RD Radovljica and have a status of official person during their work time.
- At the request of the fishing guard who identifies himself with a card, the fisherman must reach him safely as soon as possible.
- In accordance with the powers provided by law, the guard can:
 - require insight into a fishing licence and an identity document;;
 - photograph a fisherman in a possible violation of the rules.
 - review the fishing gear and catches;
 - examine the content of fishing bags;
 - in case he discovers violation, he can seize the fishing gear, baits and the licence.
 - in case he discovers violation, he can permanently seize the fish caught.
- Each resistance of the fisherman or lack of cooperation with the guard trying to exercise his powers, will be deemed as opposing the official party under the law and appropriately sanctioned.

- Guards of the RD Radovljica:
